On 31 July 1953, [REDACTED] 50X1-HUM

the Unit "Gonchar" (fnu) took pumps and engines of the drainage installations along when they moved from Schoenwalde airfield. Thus the entire drainage system had become unserviceable. On 4 August, truck [REDACTED] with air force personnel and fuel drums was seen proceeding from the landing field to the guardhouse. No aircraft were observed at the field. The hangars were closed, the quarters of Unit "Gonchar" were vacated and locked.
